DETAILED ACTION

1. Applicant's amendment filed 4/17/07 has been entered.

Allowable Subject Matter

2. Claims 1-10 are allowed over the prior art of record.

Allowable Subject Matter

3. The following is an examiner's statement of reasons for allowance: The prior art does not disclose nor fairly suggest a semiconductor device and the method of manufacturing a semiconductor device as described in independent claims 1 and 9. The semiconductor body has an inclusion of a localized region close to the channel-accommodating region which provides low resistance paths to encourage lateral current spreading when the device is turned on. Furthermore, the average doping of the stripes will govern the breakdown voltage of the localized region. Thus, owing to the presence of the stripes of the second conductivity type, the Stripes of the first conductivity type can provide low resistance paths relative to the drain drift region without a commensurate decrease in the breakdown voltage of the device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Monica D. Harrison whose telephone number is 571-272-1959. The examiner can normally be reached on M-F 7:00am-3:30pm.
